

After **ENERGY 1st**,
**ENERGY NEXT & FUEL
CHARGE**, we a go do
di dolla...

5. ENERGY 1st is the first 100 kWh (kilowatt hours) you use. You pay a lower rate per kWh for your first 100 kWh.

ENERGY NEXT is any kWh over and above the first 100 kWh. The rate charged for this is higher.

6. GCT @ 10% OF ELECTRICITY CHARGE. This is the 10% GCT that is applied to any amount over 200 kWh. It is collected and passed on to the Government.

7. F/E ADJUST OR FOREIGN EXCHANGE ADJUSTMENT, is the percentage change in the rate of the J\$ to the US\$ at the time of your bill. Any movement in the dollar is reflected on your bill in the F/E Adjustment.

FUEL & IPP CHARGE includes the cost of the fuel that is required to produce electricity, and some of the costs of the electricity that JPS buys from Independent Power Producers (IPPs). The Fuel & IPP Charge will change each month, depending on how much JPS has to pay for the fuel it buys, and the IPP costs incurred each period for the electricity you use.

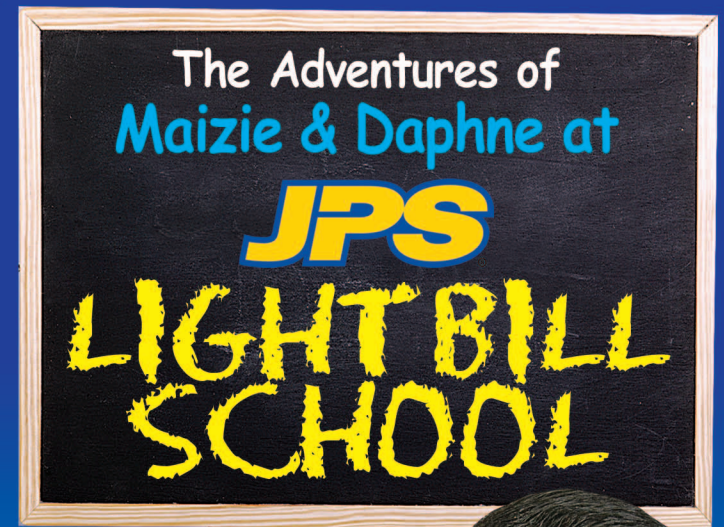

Congratulations!
You've successfully completed your
Diploma Course at JPS Light Bill School!

NOVEMBER 2011

The Adventures of
Maizie & Daphne at
JPS
**LIGHT BILL
SCHOOL**

See if you qualify for Light Bill School!

Answer this question.

Question: Aside from the amount you owe, what other useful information is on your JPS light bill?

If your answer is: "mi nuh know" Then you qualify for Light Bill School!

Maizie & Daphne's numbers guide to reading your light bill.

Daphne mek we explain the Light Bill now!

1. DUE DATE is the last date for paying the current charges on your light bill. After this date, you risk getting your light cut off.

STATEMENT DATE is the date when your light bill was printed.

2. Your CUSTOMER - PREMISES NUMBER (Account Number) is very important. State this number when you call JPS to check on your account. It helps you to get information quickly.

3. ACCOUNT SUMMARY This sums up the history of your last bill and the payments made. It also shows the **current charges** and the **total amount due** which includes any balances brought forward.

See a balance brought forward? You can be disconnected for any amount brought forward.

If you have already paid this amount, pay only the amount you see in **Current Charges**.

4. NO. OF DAYS is the number of days for which you are being billed. Check this figure on each light bill you get. It varies from month to month, and affects your Current Charges.

So how does JPS come up with your no. of days?

They count the number of days in your **BILLING PERIOD**, which is in the thin gray strip that's in the middle of your light bill.

From: 28-Aug-2011 To: 27-Sep-2011

3 ACCOUNT SUMMARY

Previous Balance	Payments	Balance Brought Forward	Current Charges	Total Amount Due
\$7,028.34	\$7,000.04	\$28.30	\$7,608.35	\$7,636.65

Dear Customer,
Effective May 2011, cheque payments for electricity bills will ONLY BE ACCEPTED at our 15 Customer Care Offices island wide. Cheque payments will NO LONGER be accepted at third party collections agencies of other locations.
The Company also encourages large business customers in particular to use the convenience of the Real Time Gross Settlement (RTGS) facility recently introduced by the Bank of Jamaica (BOJ) to make bill payments.
JPS reminds that bill payments can also be made on time.
For further information please call 1 888 225 5677/1 888 CALLJPS.
